

The Center for Natural Land Management's

Spring Day at Violet Prairie Farm

Kick off Wildflower Appreciation Week with a morning at our seed farm!

Volunteers can expect to learn a lot about our local lowland wildflowers and take part in a wildflower Easter Egg hunt. We will spend the morning helping with various tasks, including (easy) weeding, and preparations for the upcoming wildflower and seed collection season. This is a family friendly event open to all ages and abilities.

This event will be followed by a tour of Violet Prairie Farm and Violet Prairie Preserve from 12-1pm.

Center for Natural
Lands Management

WHEN:

Saturday, April 20

10:00 AM—12:00 PM

WHERE:

**Violet Prairie Farm
17843 Gibson Road
Tenino, WA, 98589**

ssvolunteers@cnlm.org
for directions**

Center for Natural Lands Management is a private, nonprofit organization dedicated to the protection and restoration of imperiled species and their habitats in the states of Washington and California. Founded in 1990 and inspired by the need for more rigorous perpetual funding and science-based stewardship models for endangered species protection, we now care for more than 70 preserves, protecting and restoring the sensitive and imperiled flora and fauna species and their habitats in perpetuity. We are an accredited land trust by the Land Trust Accreditation Commission, reflecting CNLM's commitment to rigorous conservation business practices.
